# Welcome To Sun Express

## Going the extra mile

Sun Express is a family-owned transportation company, serving California, Nevada and Arizona. Since 1954 we have been delivering consistent, reliable and courteous service to our clients, always at a fair price.

## About Us

Brian Jr. and Ben Bachar

At Sun Express, we enjoy taking the burden of logistics off our clients to allow them to focus on growing their businesses. Our commitment to client satisfaction has helped us grow from a single delivery truck to a fleet of 50 trucks and 150 trailers! We work hard to meet or exceed the most demanding of expectations, because we know that if we do our job right, we'll gain a client for life.

Many companies talk about 'going the extra mile'. But at Sun Express, it's our commitment to you.

## History

It began with a truck and a vision. A Texan by birth, Hank Bachar moved to California in 1937, got married in 1950, started a family and settled in at Kaiser Steel. But Hank's entrepreneurial spirit soon got him looking around for ways to make use of his talents and ambition. Identifying a growing need to provide more reliable transportation methods in the southland, Hank put his energy into launching his own trucking company, Hank's Freight Service, in 1954.

Hank and Shirley with their young family

It wasn't long before Hank became known for going the extra mile for his clients. The fledgling business quickly grew into the highly successful business that ultimately became Sun Express.

## Services

Our attention to combining the best in technology and security measures helps ensure that your valuable goods are always being transported the best way, all the way.
